MODELS

Remote Insight
199748-001

Highly-intelligent remote management board providing continuous out-of-band communication and critical alert delivery

Remote Console

Remote Console provides a remote connection to managed servers, allowing a remote PC to display all phases of server activity (including post sequences and OS load) without loss of connection.

Remote Insight provides Remote Graphical Console capabilities for Windows NT servers utilizing standard graphics based terminal emulation software tools such as Carbon Copy and pcAnywhere 32.

Remote Reboot

Allows the remote administrator to reboot the server on demand; when the system is functioning properly, the system performs a graceful shutdown prior to reset; when the system is not responding, a cold reboot will be issued in order to bring the server back on-line.

On-board Modem

Integrated 14.4 Kb/s modem, interchangeable Data Access Arrangement (DAA) localizes support to country-specific telecommunications requirements.

Battery Backup

Integrated, user-replaceable battery provides at least 30 minutes of operation to guarantee alert delivery in the event of a server power failure.

Reset and Failure Sequence Replay

Captures and stores server video text to assist in locating startup problems and causes of failure; information is available for replay on demand.

Compaq Insight Manager Integration

Fully integrates with Compaq Insight Manager under key operating environments, providing hardware-based asynchronous server manageability; supports full out-of-band SNMP management

Remote Insight Console Application

Remote Insight functionality can be accessed through a text-based console application residing locally on the board, using standard ANSI terminal emulation packages. This increases flexibility in the event that Insight Manager may not be available.

Browser Accessible

Remote Insight is accessible with NetScape Navigator or Microsoft Internet Explorer for performing remote management tasks.

Integrated with Compaq Survey

Utilizing industry-standard browsers, users can access the Compaq Survey configuration file providing the latest server configuration information to assist in the diagnostic process.

User Administration

Supports up to 12 users with customizable access rights, each with individual log in and password protection to ensure security

Alert Administration

Provides support for alphanumeric or numeric paging, as well as alerts delivery to an Insight Manager console

Event Log

Includes a detailed event log, which is easily accessible through the Remote Insight Console or through Compaq Insight Manager

Integration with SmartStart

Fully configurable through the SmartStart interview process

Option Kit Contents

Remote Insight Board
Serial cable
Phone cable
Keyboard adapter cable
Compaq Management CD
Compaq SmartStart and Support Software CD
Compaq Systems Reference Library CD
Remote Insight User Guide
Compaq Insight Manager Installation poster
Compaq Insight Manager Asynchronous User Guide

Warranty

One-year, limited warranty[1]

SPECIFICATIONS

Architecture	32-bit EISA-based remote management board
Processor	Intel 386EX embedded processor
Upgradability	Board firmware upgradable via flash ROM
Video Support	Onboard VGA, 640 x 480 x 256, 1024 x 768 x 16
Standard Interfaces	One keyboard input/output, one serial, one video output
Modem	14.4 Kb onboard with localized Data Access Arrangement, v.42bis, MNP5, backlist support
Memory	1-MB flash ROM, 1-MB RAM, 512-KB video RAM
Battery System	Rechargeable, user-replaceable
Paging Support	Alphanumeric or Numeric (TAP and DTMF protocol support)
Remote Insight Operating System Support	Supported Operating Systems: Windows NT 3.51 or later, Novell Netware 3.12, Netware 4.x, NetWare 5 SCO UnixWare 2.x and 7 SCO OpenServer 5 IBM OS/2 Warp Connect 3 & Warp Server 4

COMPATIBILITY

Desktops

Compaq Deskpro EN Series Desktop
Compaq Deskpro EN Series Minitower
Compaq Deskpro EN Series Small Form Factor

Workstations

Compaq Professional Workstation XP1000
Compaq Professional Workstation 6000

Servers

Compaq ProLiant 7000 Xeon™
Compaq ProLiant 6500 Xeon
Compaq ProLiant 6000 Xeon
Compaq ProLiant 5500R Xeon
Compaq ProLiant 5500 Xeon
Compaq ProLiant 3000R 6/450
Compaq ProLiant 3000 6/450
Compaq ProLiant 1850R
Compaq ProLiant 1600R (100 MHz)
Compaq ProLiant 1600 (100 MHz)
Compaq ProLiant 800 6/350E, 6/400, 6/450 MHz
Compaq ProLiant 400

SMB

Compaq Prosignia 740
